Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 39, 40, 42, 44-57, 59, 61-89, 91 and 93-108 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding Claim 39, line 10, the phrase "largest address of unrecorded area" is vague. It is not clear whether the claimed "largest address" means "a largest amount" or "a largest end address" of any unrecorded area in the second data area. In addition, the amended phrase "largest address" causes the number of "unrecorded area in the second data area" not clear because if there are two unrecorded areas, each one of the unrecorded area has its own largest amount of address or largest end address. In other words, in order to clarify the phrase "largest address", it is required to specify the number of "unrecorded area).

Similarly, in each of Claims 40, 42, 56, 57, 59, 88, 89 and 91, the phrases "largest address of unrecorded area" is not clear as explained above.

Art Unit: 2627

The claims not specifically mentioned above are rejected because these claims are dependent on the rejected base claims.

Allowable Subject Matter

3. Claims 39, 40, 42, 44-57, 59, 61-89, 91 and 93-108 would be allowable if rewritten to overcome the rejection under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

4. The following is an Examiner's statement of reasons for the indication of allowable subject matter:

As in each of claims 39, 40, 42, 56, 57, 59, 88, 89 and 91, the prior art of record fails to teach or fairly suggest an information recording carrier having following features:

Recording end recorded area information to the information recording medium, the end recorded area information including the largest (end) address of unrecorded area in the second data area, wherein the end recorded area information identifies a recorded area on the second data area having an end address corresponding to the end address of the second data area.

The features indicated above, in combination with the other

Art Unit: 2627

elements of the claims, are not anticipated by, nor made obvious over, the prior art of record.

Response to Remarks

5. Applicant's Remarks filed on December 29, 2009 have been fully considered. The amended phrase "largest address" is not clear and the amended Claims are therefore indefinite under 35 U.S.C. 112, second paragraph.

6. ***Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, THIS ACTION IS MADE FINAL. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).***

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
